

ASAD HUSSAIN

MERN Stack Developer

Hyderabad, Pakistan | 0314-7925103 | asadhussain5768@gmail.com

PROFESSIONAL SUMMARY

Highly motivated MERN Stack Developer with practical experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive, user-friendly frontends with React.js, Tailwind CSS, and Bootstrap, and implementing robust backend APIs with Node.js and Express.js. Proficient in database management (MongoDB and Supabase), authentication workflows, and CRUD operations, with a strong focus on clean, maintainable code and scalable architecture. Experienced in transforming business requirements into functional applications while optimizing performance and usability.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js (Hooks, Reusable Components), React Native, Tailwind CSS, Bootstrap, Responsive & Mobile-First Design

Backend Development: Node.js, Express.js, PHP, WordPress, RESTful API Development, Authentication & Authorization (JWT), Server-Side Logic & Middleware

Databases & Backend Services: MongoDB, Supabase

EXPERIENCE

MERN Stack Developer | Israin Solution (Mar 2026 - Present)

- Assisted in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built and integrated RESTful APIs for handling CRUD operations efficiently.
- Collaborated with senior developers to design scalable backend architectures.
- Developed responsive and user-friendly UI components using React.js and Tailwind CSS.
- Worked with MongoDB for data modeling, schema design, and database management.
- Implemented authentication and authorization using JWT.
- Debugged and optimized application performance for improved user experience.
- Worked on cPanel and Hostbay for frontend and backend deployment.
- Worked on WordPress and PHP-based websites for client projects.

Frontend Developer | Digi Poe Agency (Jul 2025 - Dec 2025)

- Developed modern, responsive web applications using React.js with Vite.
- Built dynamic UI components using React Hooks and component-based architecture.
- Designed full-stack applications using MongoDB, Express.js, React.js, and Node.js.
- Created and consumed RESTful APIs with proper validation and error handling.
- Ensured seamless integration between frontend and backend systems.
- Optimized applications for performance, scalability, and cross-browser compatibility.
- Collaborated with team members to deliver production-ready applications.
